Weekly Bulletin \$1 Per Year

WHAT HAWAII GETS FROM U. S. FOR TERRITORY'S FISCAL YEAR

BY C. S. ALBERT.

(Special Bulletin Correspondence.)
WASHINGTON, D. C., Dec. 11.—Although Hawaii was given rather shabby and parsimonious treatment in the annual estimates for the fiscal year beginning July 1, 1912, the fact remains that quite a respectable bunch of money is recommended in the aggregate. The cry of economy that has been raised by both Republicans and Democrats caused general cheese paring. The Democrats, in control of the House, threaten to make still deeper cuts when the various appropriation bills come up for final action.

Delegate Kulanani'ole is having estimates hastened for several pending improvements in Hawaii and will offer amendments at the proper time to obtain the money. He will carry his fight through until the last ditch has been reached. He is hopeful that several projects under consideration will be included before the money measures are out of the way.

Some Territorial Salaries.

Among the great mass of items relating to Hawaii are these:

Salary for the Territorial Governor, \$7,000. For the Secretary of the Territory, \$4,000.

Contingent expenses, \$25,000. Legislative expenses, \$30,000.

Salary of the Chief Justice, \$6,000. Two Associate Justices, \$5,500 each.

For two judges of the District Court, \$6,000 each; clerk, \$2,000; reporter, \$1,200.

For the Hawaiian Agricultural Experiment Station, \$14,810.

A share in \$120,000 for marine corps improvements.

For the Hilo postoffice, custom house and courthouse, \$100,000.

Honolulu quarantine station, sewerage system and latrines, \$64,000.

Continuing seacoast defenses in the Philippines and Hawaii, \$250,000. This sum is to be immediately available.

For continuing the improvement of Hilo harbor, \$250,000.

Continuing the improvement of Kaula harbor, \$75,000.

For the construction of seacoast batteries in Hawaii, \$222,200.

Installation and replacement of electric light and power plants at the defenses in the Hawaiian Islands, \$25,000.

Purchase and installation of searchlights for the most important harbors in Hawaii, \$10,800.

Protection, preservation and repair of fortifications in Hawaii, \$15,000.

Preservation and repair of structures erected for torpedo defense in the Hawaiian Islands, \$500.

Tools, electrical and other supplies, and appliances to be furnished by the Engineer Department for the use of the troops for maintaining and operating gun and mortar batteries, \$10,000.

Naval Station.

Drydock, to complete, \$400,000.

Waterfront development, 100,000.

Street paving, 25,000.

Water system, 17,000.

Power distribution, mains and conduits, 75,000.

Metal and lumber storehouse, 25,000.

Paint and rigging loft, 25,000.

Pattern shop, 60,000.

Storehouse, 100,000.

Latrines, 10,000.

Railroad equipment, 45,000.

Floating crane, to complete, 210,000.

\$1,092,000.

Amount appropriated for the fiscal year ending June 30, 1912, \$2,262,000.

Naval Magazine, Kahuia, Hawaii.

Dock, \$25,000.

Primer house, 5,000.

One magazine, 25,000.

Loaded shell house, 30,000.

Fixed ammunition house, 25,000.

High explosive house, 5,000.

Railroad tracks and scales, 10,000.

Electric power installation, 5,500.

One gunner's quarters, 7,000.

Fresh-water system, 10,000.

Machinery, tools, etc., 5,000.

\$152,500.

For improving the light station at Kaula Point, Hawaii, \$15,000. Owing to the importance of this station, steps have been taken to change the present lens lantern light to a converted flashing 4th order lens. To support this lantern and lens and to complete the improvement of this station, a new tower is necessary.

For the preparation, construction and equipment of a lighthouse and buoy depot at Honolulu, Hawaii, \$100,000.

An adequate lighthouse depot, with suitable workshops for making repairs to illuminating apparatus and minor repairs to the machinery of the lighthouse tender and with adequate facilities for lighthouse and buoy supplies, is an important need of the Hawaiian lighthouse service. The present facilities consist of three leaky and overcrowded rooms, which are likely to be taken over by the War Department, a portion of a dock occupied through the courtesy of the Navy Department, and a small rented storehouse. It is believed that a suitable site can be obtained from the Navy Department upon which the erection of ample quarters and wharfage for the lighthouse service can be accomplished.

For establishing aids to navigation in Pearl Harbor, Hawaii, \$80,000. In view of the fact that the government

has authorized the establishment of a naval station at this point, it is essential that the channels and entrance be properly marked. This is rendered more important by the fact of the current, which is usually across the channel in the approach, and also on account of the prevailing northeasterly winds. It is reported that the dredging will be completed in 1912, and the necessary aids to navigation should then be available.

For establishing a light at or near Cape Kumukahi, Hawaii, \$25,000. This cape is the easternmost cape of the island of Hawaii. There is at present no landfall light for vessels bound to Hilo from the eastward or from Panama Canal.

For improving the lighting and other aids to navigation at Hilo, Hawaii, \$20,000. Hilo is the second port of importance in the Hawaiian Islands and has a large and increasing commerce. The present lighting is inadequate for the requirements.

SPECIAL BILL AT ASAHI THEATER TONIGHT

With tonight's performances at the Asahi Theatre the engagement of Anita Diaz' trained monkeys, as well as Odell and Hart, will terminate and beginning Monday a Japanese dramatic company will occupy the Maunakea street theatre. That Miss Diaz' "monkey circus" is one of the most entertaining acts seen on the local vaudeville stage there is no question, and as this act was originally intended for one of the numbers of the opening-bill of the Liberty Theatre, a fair idea as to the class of acts that will be played at the new theatre can be secured. Odell and Hart, who also finish their local engagement tonight, have prepared a special performance for tonight's bill and with a specially selected set of moving pictures, the trained monkeys, and a new act by Odell, an entertaining vaudeville program is promised.

FLEET LUAU WILL BE TUESDAY NIGHT

The big luau, planned some time ago by Sergeant Barry for the entertainment of the "best baseball players," will come off Tuesday night at Wai'alea. Seventy men from the fleet will be invited, fourteen from each ship, and the remainder of the guests will be drawn from the local ball teams which have made things interesting for the sailor ball-players.

Mayor Fern has entered into the spirit of the entertainment, and is heartily co-operating with the plan to give the good fellows of the fleet a real, old-fashioned Honolulu luau before they leave.

Y. M. C. A. TO KEEP OPEN HOUSE NEW YEARS

The "open house" at the Y. M. C. A. New Year's night includes ladies. The whole building will be lighted up and in operation to give the visitors an opportunity to see the inside of the Association's splendid home. Anderson's orchestra will play in the music room. Guides will show the visitors over the building.

HAWAII MILLS RESUME GRINDING

Sugar is beginning to accumulate at several plantations along the Hamakua coast of Hawaii and also at Maui ports, according to reports brought to this city by Purser Phillips of the steamer Mauna Kea. Sugar reported as awaiting shipment includes the following: Waiakoa, 2000 sacks; Pauhanu, 3300; Honokaa, 1000; Kukuihaele, 2600; Punahoa, 1952; Honuapo, 4760.
